## About the Institute

Trident Academy of Technology was established in 2005 in the state capital Bhubaneswar. The MBA programme was launched in 2008. It is affiliated to Biju Patnaik University of Technology (BPUT), Rourkela and approved by AICTE, New Delhi. It offers various specialisation in sustainability Management, International Business, Marketing, Finance, System management (IT) and Human Resource Management. Trident Academy of Technology offers various courses in engineering, management, computer applications and bio- technology.

## About the Conclave

Corporate Social Responsibility (CSR) is a transformative force in tackling today's global challenges. As climate change, resource depletion, and social inequalities intensify, CSR offers businesses a unique opportunity to create meaningful impact through innovation, collaboration, and responsibility. The one-day summit on CSR for Sustainability aims to explore actionable strategies and real-world success stories that demonstrate the power of CSR in building a resilient and sustainable future.

## Themes:

- 1) Development of acceptable professional project proposals suiting the targeted CSR Funders -How does an implementing agency secure access to credible and competent project formulators and consultants.
- 2) Use of technology for transparent real-time monitoring of progress of implementing agencies and extending help to funders for flawless government compliance
- 3) Guidance to CSR implementing agencies to formulate efficient and productive CSR project plans on issues of malnutrition, preventive public health, rural and urban sanitation, making available safe drinking water to rural and urban poor
- 4) Leveraging CSR grants for promoting education, including special education and employment linked vocational skills especially among women and socially disadvantaged.
- 5) Better utilization of CSR grants for setting up homes and hostels for women and orphans; setting up old age homes, day care centers and such other facilities for senior citizens
- 6) CSR funding for ensuring environmental sustainability by implementing the sustainable rural and urban decarbonization projects of energy, agriculture and water management sectors.

## Objectives

- Discuss innovative CSR strategies to address climate change and environmental challenges.
- Foster collaboration between industry leaders, policymakers, and sustainability experts.
- Showcase CSR initiatives that drive social resilience and inclusive economic growth.
- Equip stakeholders with practical tools to integrate sustainability into business practices.

## Target Group

- Corporate CSR leaders and ESG professionals.
- Academicians and researchers in sustainability and governance.
- Non-governmental organizations (NGOs) and social enterprises.
- Policymakers and government representatives.
- Students and young professionals in sustainability and CSR domains.
